

# Disadvantaged & Small Business Enterprise Programs

The Transbay Joint Powers Authority (TJPA), recognizing the tremendous opportunities available in the construction of the Transbay Transit Center, has adopted ambitious disadvantaged and small business enterprise participation targets and goals.

In order to achieve these targets, the TJPA has secured the services of a skilled and dedicated DBE/SBE Program Support Team in Business Development, Inc. (BDI).

The DBE/SBE Program Support Team will provide assistance to disadvantaged and small businesses that are interested in working on the project. The Team will:

- facilitate meetings between small contractors and pre-qualified prime contractors
- maintain a plan room where small businesses can secure copies of the plans, specifications and estimates for the various project components
- provide certification assistance for those firms that are not yet certified
- arrange pre-bid meetings and project walk-throughs

Please contact the DBE/SBE Program Support Team to learn about opportunities on the Transbay Transit Center project for *your* small business.
